

Annotation dialog box

each appears in sequence

1. Precipitant: Lt type	5. # participants
2. Object Lt type	6. P. dosage: MG <input type="checkbox"/> Form <input type="checkbox"/> Dur <input type="checkbox"/>
3. Assertion type	7. O. dosage MG <input type="checkbox"/> Form <input type="checkbox"/> Dur <input type="checkbox"/>
4. Effect modality comment	8. AUC <input type="checkbox"/>
	10. Cmax <input type="checkbox"/>
	11. C _{tr} <input type="checkbox"/>
	12. C _{min} <input type="checkbox"/>
	13. T _{1/2} <input type="checkbox"/>
	SAVE + FINISH
	SAVE + ADD ANOTHER ANNO

highlighted text to be annotated

if checked, boxes for amount, formulation + duration appear. If not checked, nothing appears + data is automatically stored as UNK for each.

SAVES closes dialog box; returns to document

SAVES; dialog box remains open with same text. All fields are cleared, but summary of completed annotations visible below

1. Prec: X	obj: Y
------------	--------

this should be sufficient info to distinguish them
